

This is a three column graph. After you print it off, glue it onto a 12x18 piece of construction paper. Extend the center lines down. Then I laminate mine. Now you can write on it with a dry erase marker. I let the kids taste test small amounts of each of the products. Then I have the kids choose their favorites and chart the responses. After all the kids have responded, I write a 'blank' statement at the bottom...like - Most of us like ice cream best.

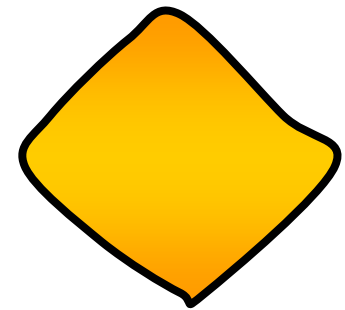

My favorite milk
product is...

ice cream

yogurt

cheese
